

Mini-Course on PDE-Constrained Optimization

University of Basel, Switzerland, May 23-27, 2011

Given by

Prof. Eldad Haber,
University of British Columbia, Canada

Topics

Theory and Solution Approaches of PDE-Constrained Optimization,
Introduction into Algorithms for Constrained Nonlinear Optimization,
Application to Computational Inverse Problems, Electromagnetic
Imaging, Experimental Design, and Medical Imaging

Organizers

Marcus Grote and Olaf Schenk,
University of Basel, Switzerland

Web Site, Registration
